

Critical Incident Policy

Introduction

St. MacDara's Community College aims to protect the well-being of its students and staff by providing a safe and nurturing environment at all times. This is confirmed in the mission statement of the college,

We, the community of this College, through a caring and collective approach, aspire to provide a broad-based education for all, to foster respect and dignity and to promote a safe and just environment by positively encouraging all to realise their potential.

The Board of Management, in consultation with the Principal and the staff of the college, has drawn up this Critical Incident Management Plan as one element of the college's policies and plans.

A critical Incident Management Team (CIMT) will be established which will take responsibility for the implementation of the Critical Incident Management Policy and Plan. The CIMT should consult resource documents provided to schools as well as any other relevant sources.

What is a critical incident?

The staff and management of St. MacDara's Community College recognise a critical incident to be an incident or sequence of events that overwhelms the normal coping mechanism of the school. Critical incidents may involve one or more staff members, or members of our local community. These incidents may include;

- The death of a member of the school community through accident, violence,
- Suicide or suspected suicide or other unexpected death
- An accident involving members of the school community
- An accident/tragedy in the wider community
- Serious damage to the school building through fire, flood, vandalism, etc.
- The disappearance of a member of the school community
- An intrusion into the school
- A violent assault on a member of the school community

Other incidents may be considered as critical incidents and may be designated as such by the CIMT.

The aim of the school plan and policy.

The aim of the plan and policy is to help school management and staff to react quickly and effectively in the event of an incident, to enable us to maintain a sense of control and to ensure that appropriate support is offered to students and staff. Having a good plan should also help ensure that the effects on the students and staff will be limited. It should enable us to effect a return to normality as soon as possible.

How the college aims to create an atmosphere of physical and psychological safety.

The physical safety of the school community is extremely important.

The following are some of the measures in place to address the physical safety of the college community;

- An evacuation plan has been formulated
- Regular fire drills occur, planned by the Health and Safety Officer
- Fire exits and extinguishers are regularly checked
- Pre-opening supervision is provided in the school canteen
- School doors closed during class time and can only be opened from inside
- Visitors to the school must check-in at reception and when authorised are signed in and must wear a “visitor” lanyard
- Internal and external CCTV is in operation
- Security doors
- ‘CCTV is in operation’ - Display posters around the school.
- Current fire doors at entry to base areas are under review; subject to change

The management and staff of St. MacDara’s use available programmes and resources to address the personal and social development of students, to enhance a sense of safety and security in the school and to provide opportunities for reflection and discussion. The following are examples of some being used;

- The Social Personal and Health Education (SPHE) is integrated into the work of the college
- Positive Mental Health is promoted
- Guest speakers who enhance the work of the SPHE team and all staff are regularly invited to speak to staff and/or students
- Training is regularly offered to staff to support their work on the SPHE team
- Staff are familiar with the Child Protection Guidelines and Procedures and details of how to proceed with suspicions or disclosures
- Books and resources on difficulties affecting the primary/post primary school student are available
- Information is provided on mental health in general and such specific areas as signs and symptoms of depression and anxiety
- Staff are informed in the area of suicide awareness and some are trained in interventions for suicidal students
- The school recognises the importance of being able to liaise with external agencies e.g. TUSLA, the NEWB, an Garda Síochana, the Lucena Clinic, the DDLETB Psychological Support Service, PIETÀ House, Jigsaw etc.
- St. MacDara’s has a clear anti-bullying policy in place which lays down the procedures to deal with a bullying situation.
- The care system in place in the school is founded in the college mission statement and in the general ethos of the college. This system is based around the class Tutor, Year Head, the SPHE Team and the Care Team who meet on a weekly basis. Students who

are identified as being at risk are referred to the designated staff member (e.g. guidance counsellor or chaplain), concerns are explored and the appropriate level of assistance and support is provided. Parents are informed, and where appropriate, a referral is made to an appropriate agency

- It is important also that staff are supported and advised, when necessary, how to access assistance for themselves.

The Management and procedures following a critical incident in St. MacDara's will use the publications of the DES;

- Responding to Critical Incidents: Guidelines for Schools
- Responding to Critical Incidents: Resource Materials for Schools

There is a great deal of advice and information contained within these publications which will inform the college response to a critical incident.
